Idaho Industrial Commission (IIC) Announcement

IIC EDI Claims Release 3.1, DN0444 Date Claims Administrator Decision to Deny Claim

Date: May 13, 2025

Idaho has reconsidered the additional requirement of DN0444 Date Claims Administrator Decision to Deny Claim which was scheduled to be effective 06/16/2025 as indicated in V1.8. This data element will no longer be required or accepted.

Idaho will be releasing an update to their tables, Version 1.9, to provide additional clarity on requirements for the filing of SROI AN, SROI CA and reporting of Reduced Earnings Segments. A separate announcement will be distributed once updated tables become available.

Currently, Idaho expects that the reporting of TPD and Reduced Earnings Segments is consistent with the IAIABC standard. However, discussions during recent EDI Claims Committee Meetings demonstrated that the standard was widely misinterpreted and claim systems were not programmed to properly report this data. Therefore, Idaho will allow trading partners sufficient time to make the appropriate system changes so that by January 1, 2026, these filings correctly report this information. To help facilitate this transition, Idaho will provide scenarios and conduct a webinar outlining the reporting requirements. Registration information will be distributed in advance of the webinar.

Thank you,
Idaho Industrial Commission EDI Support Team
