

Idaho Industrial Commission EDI Claims Services (IIC) Announcement

IIC Claim Administrators and Vendors – EDI Claims R3.1 Implementation Effective July 18, 2022

Date: July 9, 2020

To: IIC Claim Administrators and EDI Vendors

The Idaho Industrial Commission announces its upcoming transition from IAIABC EDI Claims R3.0 to EDI Claims R3.1 effective July 18, 2022. Trading partners will have two (2) years to assess their ability to report under R3.1, evaluate the Element Requirement Tables when released by the IIC, and conduct adequate testing. We anticipate the final requirement tables to be published and available for testing no later than February 18, 2021.

We expect this conversion to allow more accurate reporting and overcome issues related to the limitations of R3.0, as well as allow the IIC to utilize significant enhancements made by the IAIABC in the new release. Ongoing updates will be made available on our website at <https://iicedi.info/>.

As always, we welcome feedback from trading partners for proposed edits or suggestions as we work to streamline the requirements. Please send related questions or comments to iicedi@iso.com.

Thank you,
Idaho Industrial Commission EDI Claims Services EDI Support Team
